COMPANY PROFILE

INTRODUCTION

Moon Textile is one of the most innovative, textile-based cluster in Pakistan. We are solution providers over last two decades. Moon Textile, inception in 2006, Karachi, as a leading knits fabric manufacturer with an aim to provide complete solutions for apparel and home consumer needs, this meant extend support to improve and augment the quality of textile products and services in the region. We take pride in manufacturing top of the line, quality textile products such as (towels, bathrobes, fitted sheets & garments). We have continued to grow globally in regions like USA, Europe.

Today Moon textile has sculpted an image for itself and for Pakistan that is premium and respect worthy. We have gained trust of textile-based businesses and made huge inroads in home textile and apparel markets worldwide.

It is due to our continuous commitment to quality, state of the art equipment, our 'category centric research', development and upgradations in term of capability, skill and craft, marketing strategies our dedicated team and our work philosophy that has always been 'customer centric'. We have steadily increased our exports year after year.

VISION
